Van Mahotsav 2018

According to a report by the Ministry of Environment and Forests, the total remaining tree cover of India that included forests and non-forest areas was 24.16% in 2015.

Realising the importance of trees for our future, **Womenite** celebrated 'The Festival Of Trees', '**VAN MAHOTSAV**' in a bid to raise awareness about the importance of trees and encouraged people to plant more of them. After our team came into action, **1000 saplings** were planted.

Through this act we not only aimed at planting trees just for a day but we also wanted to convey the message that through TEAMWORK, DETERMINATION and LOVE it is always possible to deal with any concern in the world as "Love is like a tree, it grows of its own accord, it puts down deep roots into our whole being."

Engaged local community to join us and take care of the environment
